

RANEEM AL JAMAL

Beirut, Lebanon | aljamal.raneem@gmail.com | +961 76707301 | [Github](#) | [LinkedIn](#)

PROFILE

Full-Stack Web Developer experienced with popular frameworks and libraries such as React, Laravel, and NodeJs. My proficiency extends across different technology stacks, including MERN (MongoDB, Express.js, React.js, Node.js) and LAMP (Linux, Apache, MySQL, PHP). I am adept at using version control tools like Git, GitHub, and GitLab. My grasp of frontend technologies includes HTML, CSS, JavaScript, ReactJS, Next Js and React Native. I am well-versed in Agile development methods and the MVC framework. I find it incredibly rewarding to work on the user interface and create engaging and interactive experiences for users.

PROFESSIONAL EXPERIENCE

Full Stack Development Program, Codi Tech (Nov 2022 - June 2023)

I have enrolled in Codi Tech for 7 months. It is an intensive boot camp. I've engaged in diverse backend projects using languages like Node.js, Express.js, PHP, and databases like SQL and NoSQL. On the frontend, I've utilized JavaScript, and React. Additionally, I'm adept at Linux (Ubuntu) and LAMP Stack for server management. In addition to developing RESTful APIs, fixing bugs, maintaining web applications, and working with Postman.

Pharmacist , manager at Amal pharmacy (2013 - 2022)

PROGRAMING PROJECTS ([Video Demos](#))

- **CARDSY Web Application** | MERN stack (repos: [Backend](#), [Frontend](#), [Deployed Link](#)): Designed and developed a mixed social media and flashcards system website for learning purposes, REST api with dashboard and diploid.
